DETAILED ACTION

Response to Arguments

1. This office action is in response to communication filed on 3/26/10. Claims 8-13 are pending in this application with Claims 1-7 cancelled.
2. Applicant's arguments with respect to claims 8-13 have been fully considered and are persuasive.
3. The drawings were received on 4/16/10. These drawings are acceptable.

Allowable Subject Matter

4. Claims 1-20 are allowed.
5. The following is an examiner's statement of reasons for allowance: The Kim reference (WO 00/77961) discloses a frequency and symbol timing synchronization apparatus for orthogonal frequency division multiplexed (OFDM) signals utilizing an autocorrelation unit and cross correlation unit on synchronizing symbols (i.e. preamble symbols). The Vanderperren reference (US 7,286,617) discloses a receiver for performing coarse and fine timing synchronization on separate groups of OFDM preamble symbols respectively. Neither the Kim or Vanderperren references taken alone or in combination, disclose, teach or fairly suggest "and wherein the result of the autocorrelating the samples of the group of preamble symbols by the autocorrelating unit is not used by the crosscorrelating unit for the crosscorrelating the samples of the further group of preamble symbols with the predefined samples"; and used in combination with all of the other limitations of the claim 1. The aspects as summarized above are neither anticipated nor obviated by the prior art of record.

Art Unit: 2611

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
